

VANCOUVER INTERNATIONAL SOCCER FESTIVAL

FESTIVAL OVERVIEW

» You are taking part in much more than a multi-ethnic soccer tournament; you are expressing one of Canada's most cherished values: acceptance. We live in a country where we have understood that we are rich not despite our diversity but because of it. For me this is a message that will need to be repeated from generation to generation to make sure that this core value of what makes us Canadian never dies" «

The Right Honourable Justin P. J. Trudeau, Prime Minister Of Canada

VISF is a soccer festival organized by One Team United for Peace and Development. With a big vision and an outstanding community track record, the festival strives to be one of the most successful international tournaments in the world. VISF provides local and international guests with an exceptional soccer and cultural experience that will benefit our city, country, and the world.

In past years, VISF, ONETEAM Society, and partners hosted players from Israel and Palestine. This once in a lifetime opportunity saw Arab and Jewish athletes competing together as one team in the Vancouver International Soccer Festival.

The team impressed and inspired members of the local community with their passion and cooperation towards a common goal. They showed participants that peace and social change for their respective communities in Israel and Palestine is possible. CBC soccer day in Canada and CBC the NATIONAL featured the tournament and Israel-Palestine team in a special national broadcast.

WHY SOCCER?

Soccer is the biggest game in the world. The game is watched and played by billions of people worldwide; therefore, it's a powerful medium for change and for making a difference. The game transcends borders and barriers, and is among the most powerful tools for creating awareness about issues of global interest.

» Sport has the power to change the world. It has the power to unite in a way that little else does. It speaks to youth in a language they understand. Sport can create hope where once there was only despair. It is more powerful than governments in breaking down racial barriers. It laughs in the face of all types of discrimination.« Nelson Mandela
